

**Wrap Heat Tape
Around Hydrant Head
(Don't Wrap the Shutoff)**

**Starting from the
ground, wrap heat tape
around the hydrant pipe
to the top and around
the top of the hydrant
also. NOTE: Heat tape
must have a built-in
thermostat. Place the
thermostat against the
pipe while wrapping
around the pipe**

Insulate the water hydrant pipe and hydrant head with ½ in foam or some other insulation material
